

## **North Carolina and National Appraisal Organizations and Resources**

The Weatherspoon Art Museum staff does not make monetary appraisals of works of art or determinations of authenticity, attribution, or provenance. WAM does not purchase or sell art from private collectors. These appraisal and auction organizations can help you find an appraiser who will appraise and/or authenticate works of art for a fee. Auction houses can also assist with selling or purchasing artwork.

This list is not an endorsement of these organizations, or a guarantee of the accuracy of their work. Persons wishing to have works of art appraised are advised to contact one or more of these appraisers, and to discuss how the appraisal is to be done and what it will cost before they commit themselves to getting an appraisal.

The following list is current as of Spring 2025.
